Your best value business partner for IT & Communications

Mercia Facilities Management is a total service provider of technology solutions to local and regional business, delivering bottom line benefits through our people, technology products and support services.

In the last 25 years, the computer age has dramatically changed the way we all work and do business; we've come along way in terms of communication and advanced working processes.

Having partnered with local business for many years, we know this is a positive change and indeed profitability has been positively affected for many firms. Contrastingly we regularly meet businesses in the Midlands that struggle to embrace the right technology to help move their business forwards.

Part of the reason for this is not having the right IT & Communications partner by their side; a partner who can offer flexible, cost effective solutions, speak in non-technical terms and whose sole goal is to increase your business efficiency and fast track working processes.

Our clients include many industry-leading companies across the region from a wide variety of markets, both big and small. This pedigree and reputation means you can be confident in recommending us to your clients and contacts.

At Mercia Facilities Management delivery means high standards, projects completed on time and delighted customers.

Bharat Panchal
Director

Paul Vuckovic
Director

"Liger Technology have done a great job for us by setting up our network and email systems."
Helitechnique International Ltd

"Apart from the help they have given us, I would also say that we have gained valuable friends for the association. Without MFM we would be in quite a mess. They are professional, know their stuff and are ever mindful of the budget."
Warwickshire Association for the Blind

Total technology solutions for Coventry, Warwickshire & the West Midlands

IT Systems Design & Installation | Virtual IT Department | IT Support | Internet / Web Infrastructure | Security | Consultancy | Hardware | Software | Networking | Telephony / VOIP
